# How to Make an Observation with your iPhone

1 Tap observe

2 Add one or more photos as evidence

3 Enter what you saw or leave this blank

4 When you saw it should be added automatically

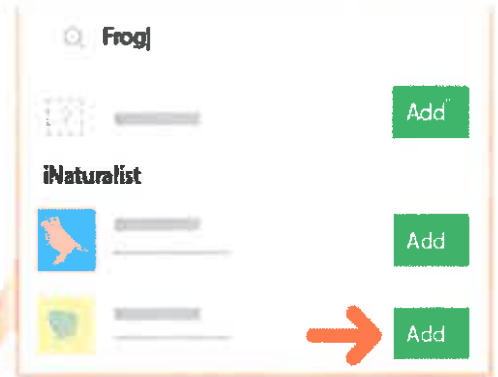

5 Where you saw it should be added automatically, if not check Privacy in the Settings app

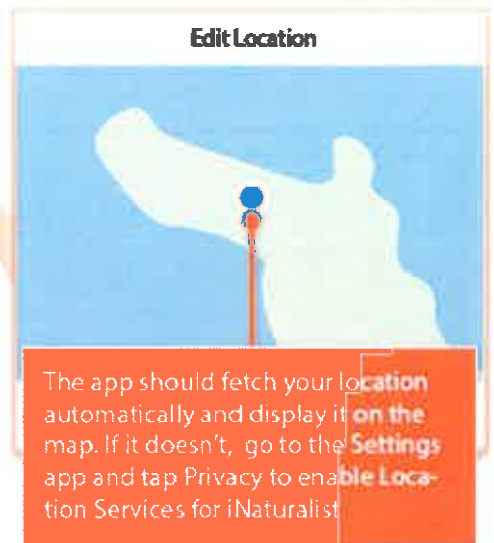

6 Save your observation

*turn on Smith Pond Shaker Forest*

Search for your organism or leave it blank and ask the community for help

The app should fetch your location automatically and display it on the map. If it doesn't, go to the Settings app and tap Privacy to enable Location Services for iNaturalist.

7 Upload to share with the community. This should happen automatically, if not tap the button. You can turn off autoupload from the app settings from the Me tab.

8 Check back for activity on your observation from the community
